

Wilmington Pike Construction Update: Aug. 5, 2016

The contractor has completed the removal of the traffic medians and installation of temporary pavement on Wilmington Pike, north and south of Whipp Road intersection, in preparation of the next phase of construction. Traffic on Wilmington Pike and Whipp Road will be shifted to begin the next phase of construction starting Wednesday, August 10 and be in place for approximately 30 days. Changes to traffic will be as follows:

Wilmington Pike: Northbound (NB)

Wilmington Pike NB from Dille Drive to Brown Road will be shifted east on to the new pavement. This will create two lanes NB and SB lanes on Wilmington Pike.

Wilmington Pike NB from I-675 to Brown Road will follow the existing lane configuration over the next phase, with the exception of one NB left turn lane at Whipp Road and the NB left turn into Morris Furniture driveway.

The NB left turn lane to Whipp Road will be limited to one left turn lane. This is necessary to accommodate the closure of the northern westbound receiving lane on Whipp Road west of Wilmington Pike. The NB left into the Morris driveway will be temporarily closed due to the traffic shift.

Wilmington Pike: Southbound(SB)

Wilmington Pike SB from 500' north of Whipp Road will be shifted east to allow construction to begin on an additional SB right turn and thru-lane on the west side near Speedway. The goal is to keep two thru-lanes and a left turn lane during this phase. There will be a couple of one-thru lane closures intermittently during the workday, over the next month. Driveways to Speedway will require short closures during some of this construction.

The work on the Loon on the west side of Wilmington Pike at Brown Road will continue over the next couple of weeks. A Loon will allow northbound traffic to make a legal U-turn. The Loon construction will affect traffic on SB Wilmington Pike at Brown Road during the workday as needed.

Whipp Road: Eastbound(EB)

Whipp Road EB traffic will remain in its current configuration thru the next phase of construction.

Whipp Road: Westbound(WB)

Whipp Road WB from Wilmington Pike to Kettering Corporation line will be limited to one lane. This is necessary to construct additional lane for westbound traffic in front of Speedway. Driveways to Speedway will require short closures during some of this construction.

Montgomery County Environmental Services will be working on water lines in the area south of Whipp Road, but should not affect traffic.

Dayton Power and Light will be working near the intersection of Whipp Road and Wilmington Pike on underground power lines, but should not affect traffic.
